Hannah
Elizabeth
Kosloski

November 16, 1993 to
September 13, 2007

Hannah's
dream was *More than a dream*
it was a **WORLD VISION!**

Even though a tragic
horseback riding
accident took
our Hannah's life,
God-given Dreams are
too big to die.

Hannah's **appreciation** for the life she had, and her **compassion** for those who were without even the most basic things--like **clean water**, caused her to set a goal of inspiring the sponsorship of 100 children thru **World Vision**.

Since her death, many people have honored her life thru sponsorship--but others gave monetarily in their sympathy cards. We donated those financial gifts to **World Vision** in order to dig a **well for clean water** in Africa. Now, we are working towards another well, and *Hannah's Vision*.

**Please consider
joining us or sponsoring a child .**

**Your life
will be touched!**

Love, Jim and Sylvia Kosloski

What would life be like for YOUR family if its ONLY source of water was a polluted, diseased-ridden surface runoff pond?

In many countries, even 3-5yr olds walk 1-5 mi. every day to help their families fetch water that makes them sick - so sick that 1/2 of all the deaths of children are due to diseased water!

What if it were a child you love?
